Tenderer's Technical Offer

A technical offer is to be provided by the Economic Operator in response to Technical Specifications. The submission shall be in a structured form and is to be in the same sequence as listed hereunder for ease of reference and evaluation.

The Technical Offer shall constitute the following:

1) **A Graphic Work Schedule** (Gantt Chart) of the proposed works that will be carried out taking into account the Execution Period of this tender which is of 52 weeks from Order to Start Works. The Schedule should be broken down according to the proposed phases of work and related actions. The Graphic Work Schedule shall be approved by the Contracting Authority.

2) A **Construction Management Plan** including details of the site logistics to be undertaken by the Contractor and a preliminary risk-assessment are to be submitted. These shall include inter-alia;

    - Information on the strategy to be adopted by the Contractor to ensure access in St George's Square taking into consideration the various limiting factors of the site and how to cause the least disruptions to the parishioners and customers in the Square.
    - Details on the erection of Scaffolding including loadings and design supports. Given the sensitive nature of the Basilica, the location of the bases shall be approved by the Contracting Authority although responsibility for soundness and safety of the scaffolding rests entirely with the Contractor.
    - Measures to ensure that during the execution of the works no nuisances such as dust emissions and noise which would disrupt the daily functions of the church are present.
    - Measures to ensure safety of both workers working on the project as well as persons frequenting services in the Basilica during the execution of all phases of the works.

    Notwithstanding the approval by the Contracting Authority of this programme of works, the full responsibility for the execution of works and safety shall rest entirely with the Contractor as per Tender conditions.

3) **'Organisation and Methodology'** Report which is to include but not limited to the following:

    - An outline of the objectives, methodology to be used, assumptions, risks and results to be achieved
    - A preliminary assessment and documentation of the present state of conservation of the works to be restored under this tender. It is to be supported by a historic note, photographs, etc.
    - Proposal of the scientific analysis needed before commencing works.
    - Preliminary investigation of past interventions
    - Detailed proposal of the intervention to be carried out, methodologies to be adopted for the execution of these works, techniques and materials to be used.

Technical Offer Declaration:

I / We declare that as part of our technical offer, we confirm that the works will be carried out in accordance with the Technical Specifications (Section 4), as detailed in the Bills of Quantities and as per Drawings.
